

# Gathering of Stories

Ft. Collins Library Storytime Especially for Adults

## Seeds, Flowers, Dandelions & Love

*with Kathleen Santopietro Weddel*

The first of May ushers in a look at our rich earth and gifts of new growth, opening blossoms, and green sprouts.

Come and welcome the season with three stories for adults and young adults that engage us with images of seeds, flowers, and dandelions woven together with the common thread of love.

☞ Love between a store clerk and an extraordinary young man who brings her flowers

☞ Love between a woman with a clematis that never bloomed and her continuing education teacher

☞ Love between a lonely stenographer and a farmer who reunite all because of dandelions
