

Graduate Internship Assessment—Student

Dear Graduate Student Interns:

For assessment reasons, all students registered for credits in E684 and/or E687 are required to respond to the following survey. (Classes are included, such as the Center for Literary Publishing Internship.)

In addition, students who did an out-of-department or off-campus internship are required to write a 1-page summary paper (see below). Students in internship classes need not write the paper.

Please respond by _____. Place your survey answers and paper in my department mailbox, or send your responses via email to dludwin@lamar.colostate.edu. Please contact me if you have any questions or concerns. Though your answers will be part of our English Department Assessment document, your name will not.

Many thanks~

Deanna Ludwin
English Department Internship Coordinator

Internship Assessment Survey

Yes & no answers are fine. Comments are encouraged.

Name:

Semester:

Name of Course or Internship:

Number of Credits:

Name of Supervisor (and Organization) or Faculty Instructor (and Class):

Name of Your Graduate Program (CD, Rhet-Comp, English Ed, Creative Writing, ESL/TESL—including Peace Corps):

1. Is an internship required for your program? If not required, is it encouraged?
2. Did the knowledge and skills you've gained in your degree program transfer to your internship experience?

3. Were you provided appropriate instruction, supervision, and support?
4. Did you gain knowledge and learn new skills/methods during your internship?
5. Did your internship help you explore, define, and/or clarify a possible career path?
6. Overall, was your internship a worthwhile experience?
7. Would you recommend the English Department Internship Program to other students?
8. Other Comments?

The One-Page Paper

Please summarize your internship experience. Your heading should include your name, the date, the semester for which you are/will be registered, and the kind of internship you did, including the course number and number of credits. The paper itself should explain why you chose to do an internship, the duties of the internship, approximately how much time you spent on each of these duties, the number of hours and days a week you worked, what (specifically) you learned from the internship experience, and how it will help you with a career. Also, please write about whether you enjoyed your experience and what aspects you enjoyed most (and/or least). May we use any positive comments on our Web site?
