

# Spring 2012 BSPM Seminar Series

Seminars are Wednesdays at 12:00 noon in Plant Science E008

Weds	Speaker	Institution	Title
1/18/12	No Seminar		Organizational Meeting
1/25/12	Julie Scher	USDA/APHIS	Digital Technology-based Identification Tools for Plant Protection
2/1/12	Scott Haley	CSU	CSU Wheat Breeding and Genetics Program
2/8/12	Stephen Herbert	University of Wyoming	Future Farming: Domesticating Algae for the 21st Century
2/15/12	Sabrina Kumschick	Colorado State University	Evolution Towards Higher Performance in Introduced Common Mullein ( <i>Verbascum thapsus</i> )
2/22/12	WSSA Student Presentations	CSU	WSSA Presentations
2/29/12	Saunak Sen	John McKay's	Genetic Mapping of Traits that are Curves
3/7/12	Kevin Delaney	USDA/ARS	Wheat Stem Sawfly Interactions with Wheat, and Classical Biological Control of Weeds
3/14/12	No Seminar	Spring Break	
3/21/12	Blair Siegfried	University of Nebraska	Developing Sustainable Approaches to Corn Insect Pest Management
3/28/12	Bob Hammon	CSU Extension	Insects Affecting Native Plant Seed Production
4/4/12	Elisa Bernklau	CSU	Western Corn Rootworm Host Selection
4/11/12	Rebecca Powell & Christy Cleaver	Colorado State University	Brown Marmorated Stink Bug: Economic Impact on East Coast Crops
4/18/12	Brian Traw	University of Pittsburgh	Ecological Genomics and the Interactions of Plants with Bacterial Pathogens
4/25/12	Harry Savage	Center for Disease Control	The <i>Culex pipiens</i> Complex in the USA: Identification, Distribution and Biology
5/2/12	John McKay	CSU	Drought Acclimation and Adaptation
