

**Join us at the foot of the Rocky Mountains
in the mile-high city of Denver
for the 2010 edition of the
North American Regional Science Association conference
November 11-13th 2010**

Located at the base of the Rocky Mountains, Denver is one of America's most beautiful cities -- and one of the most fun. Blessed with 300 days of sunshine a year, Denver has the nation's largest city park system, 90 golf courses and an incredible 650 miles of paved bike trails. Denver has the tenth largest downtown in the U.S., a bustling area centered around a mile-long pedestrian promenade lined with outdoor cafes and flower displays. Mountain views beckon down virtually every street and alleyway. The mountain panorama visible from Denver is 120 miles long and includes nearly 200 named peaks. Downtown Denver is home to three new sports stadiums, 300 restaurants, a collection of museums, a variety of galleries and shopping, the second largest performing arts center in the nation, three college campuses and even a unique downtown amusement park, Six Flags Elitch Gardens. Denver brews more beer than any other city with 80 different beers brewed here. LoDo (Lower Downtown) is Denver's hip downtown historic district where restored Victorian buildings now house more than 90 sports bars, brew pubs, jazz clubs and restaurants.

Ron Ruhoff/Denver CVB

The Grand Hyatt will be our home, which includes the 38th-floor skyscraper-top Pinnacle Club with a 360-degree view of Denver and the Rockies for our traditional Thursday reception. The hotel is ideally situated in the downtown area near the 16th Street pedestrian Mall within easy walking distance of the LoDo historic district as well as Denver's cultural offerings, including the new Libeskind-designed wing of the Denver Art Museum. Early season skiing and late season hiking are also within an hour's drive.
