

I retired from the USGS (i.e., Federal Government) on January 2, 2009; this is not the same as absolutely retiring. I fully expect to exit my Federal position with no strings left. However, I will stay at CSU, in this same office for a while (perhaps a couple years). We have room at the Unit and at CSU and we do not want vacant rooms. I expect to be opportunistic after 2008, but I am not seeking anything in Jan. or Feb. 2009 – too soon. I plan to stay in Fort Collins as long as I am professionally active, say another 5 or 10 years.

I have been in this Unit position for just over 20 years; and I have been in the Federal Government for 36.5 years. That is long enough to merit a change.

Happy New Year, best wishes to you,

Ken (Burnham)
