

## Dance Theatre

- The University Dance Theatre is built specifically for dance performance – the only such venue in Northern Colorado and one of only a few in the state.
- The University Dance Theatre seats 192 patrons and is equipped with state-of-the-art theatrical and audio-visual systems for use by student, staff, and faculty technicians and designers.
- The University Dance Theatre features motorized lower seating which when fully retracted, provides increased dancing space for classes, master classes, workshops, and guest artist residencies.
- The University Dance Theatre stage dimensions are 50 feet wide x 40 feet deep, while the other studios measure 60x40 feet and 40x30 feet. The dance wing features natural light in the dance studios.
- The fully sprung dance floors in the dance wing are ideal for ballet and modern dance, reducing injury risk and enhancing dancers' performances. These systems provide security and support for the safety of students and faculty.
- All three dance spaces in the dance wing have audio stations for teaching and rehearsals. Three brand new beautiful pianos are available along with an impressive array of world percussion instruments all played by our talented music accompanists.
- Square Footage: 4,900.
